BAC English Examination Specifications & Task Pool (Master Guide)

1. Foreign Languages Stream

Stream Parameters

- **Duration**: 3 hours | **Coefficient**: 5
- **Reading Passage Length**: 150 to 200 words
- **Total Score**: 20 points (Part 1: 14 pts, Part 2: 6 pts)
- **Task Selection Rule**: Select exactly **5 Comprehension tasks** and **5 Text Exploration tasks**.

Part 1 — Section A: Comprehension Tasks (Select 5)

Task 1: Text Type / Verification / Multiple Choice

- **Option 1A (Text Type / Format)**:
  - *Formula 1*: "The text is a..." (a: [option 1], b: [option 2], c: [option 3])
  - *Formula 2*: "The text is an extract from an email, a web article, or a newspaper article."
  - *Constraint*: Exactly **3 options** provided across both formulas.
- **Option 1B (True / False)**: "Say whether the following statements are true or false."
  - *Constraint*: **3 to 4 statements**.
- **Option 1C (True / False with Correction)**: "Say whether the following statements are true or false and correct the false ones."
  - *Constraint*: **3 to 4 statements**.
- **Option 1D (Multiple Choice)**: "Write the letter that corresponds to the right answer." OR "Choose the answer to complete each statement."
  - *Constraint*: No more than **4 sentences/items**, and exactly **3 choices** provided per item.

Task 2: Location / Sequence / Data Extraction

- **Option 2A (Paragraph Identification)**: "Identify the paragraph in which the following ideas are mentioned."
  - *Constraint*: Target **2 ideas** from **2 different paragraphs**.
- **Option 2B (Sentence Ordering)**: "Put the following ideas in the order they appear in the text."
  - *Constraint*: Exactly **3 to 4 ideas**.
- **Option 2C (Table Completion)**: "Fill in the following table with information from the text."
  - *Constraint*: Custom table structure depending on extracted data; requires exactly **4 items** to be filled.

Task 3: Direct & Inferential Questions

- **Wording**: "Answer the following questions according to the text."
- **Constraint**: Exactly **3 to 4 questions**, including exactly **1 inference question**.

Task 4: Cohesive Markers

- **Wording**: "Find who or what the underlined words refer to in the text."

- **Constraint**: Exactly **2 to 4 target words**; selection must not be limited to referents that immediately follow or precede. **Constraint**: the words chosen for this task must be: A pronoun being personal, demonstrative, relative, interrogative, or reflexive. A word or expression which is meant to avoid the repetition of a subject in the text.

Task 5: Macro-Comprehension

- **Option 5A (Title)**:
  - *Formula 1*: "Copy the title you think is the most appropriate." (*Constraint*: Exactly **3 suggested titles** provided)
  - *Formula 2*: "Give a title to the text." (*Constraint*: Open response; **no suggestions** provided)
- **Option 5B (General Idea)**:
  - *Formula 1*: "Choose the general idea of the text." (*Constraint*: Exactly **3 options** provided)
  - *Formula 2*: "Give the general idea of the text." (*Constraint*: Open response; **no options** provided)
- **Option 5C (Discourse Type)**: "The text is... a) descriptive b) narrative c) argumentative d) prescriptive."
  - *Constraint*: Apply only if a single discourse type dominates.

Part 1 — Section B: Text Exploration Tasks (Select 5)

Task 1: Lexis / Vocabulary

- **General Constraint**: Applies to 1A, 1B, and 1C — exactly **2 to 3 target items**; paragraph numbers **must be specified**.
- **Option 1A (Synonyms / Antonyms)**: "Find in the text words or phrases that are closest in meaning to the following " OR "...opposite in meaning to the following"
- **Option 1B (Matching Table)**: "Match the following words with their corresponding synonyms / opposites / definitions." This task must include a table: Two columns, two rows. The headings of each column should be bold. The first cell of the first row should contain "word". The second cell of the first row should contain either "synonym", "opposite", or "definition" depending on the task type chosen . The first cell of the second row should contain the target words chosen for the task. The second cell of the second row should contain the matching synonyms, matching opposites, or matching definitions. The column width should accommodate the length of the sentence or words which are in it and Each sentence or word must be written in one line.
- **Option 1C (Definition Match)**: "Find words in the text whose definitions follow:"

Task 2: Morphology

- **Option 2A (Chart Completion Table)**: "Complete the chart as shown in the example."
  - *Constraint*: Exactly **1 solved example** + **3 to 4 derived words** from the text (5 to 6 rows total). This task should contain a table. With four rows and three columns. The cells of the first row should contain, in order, "verb", "noun", "adjective". They should be bold. The second row of this table should contain a solved example: one verb that is transformed into a noun that is transformed into an adjective. The rest of the rows should contain one word and two empty cells for the students to fill.
- **Option 2B (Affix Separation Table)**: "Divide the following words into roots and affixes."

OR "Give the opposites of the following words keeping the same root."
    - *Constraint*: Exactly **3 to 4 words**. This task should contain a table. The table should have two rows and three columns. The cells of the first row should say, in order: "Prefix", "Root" and "Suffix" The second row should be empty.

Task 3: Grammar Transformation & Mechanics

- **Option 3A (Sentence Rephrasing)**: "Rewrite sentence B so that it means the same as sentence A." (*Constraint*: 2 to 3 sentences)
- **Option 3B (Sentence Combination)**: "Combine each pair of sentences with one of the connectors provided. Make changes where necessary." (*Constraint*: 2 to 3 sentence pairs)
- **Option 3C (Verb Tense Conjugation)**: "Give the correct form of the verbs in brackets." (*Constraint*: Passage with 4 verbs in brackets)
- **Option 3D (Question Formation)**: "Ask questions which the underlined words answer." (*Constraint*: Max 2 questions)

Task 4: Phonology

- **Option 4A (Final /s/ Pronunciation Table)**: "Classify the following words according to the pronunciation of the final /s/." (*Constraint*: 3 to 4 words). This task should contain a table. The cells of the first row should have in bold and in order "**/s/**", "**/z/**", and "**/iz/**". The cells second row should be empty.
- **Option 4B (Final /ed/ Pronunciation Table)**: "Classify the following words according to the pronunciation of the final /ed/." (*Constraint*: 3 to 4 words). This task should contain a table. The cells of the first row should have in bold and in order "**/t/**", "**/d/**", and "**/id/**". The cells second row should be empty.
- **Option 4C (Stressed Syllable Table)**: "Classify the following words according to the stressed syllable." (*Constraint*: 3 to 4 words). This task must include a table. 2 rows and 4 columns. Each cell of the first row should state in order. "1st syllable", "2nd syllable", "3rd syllable", " 4th syllable or more"
- **Option 4D (Syllable Count Table)**: "Classify the following words according to the number of syllables." (*Constraint*: 3 to 4 words). This task must include the table. The table Has 2 rows and 4 columns. The cells of the first row should state, in bold and in order: "one syllable", "two syllables", "three syllables", "four or more syllables", The second row should be empty.
- **Option 4E (Silent Letter)**: "Circle or write the silent letter in each of the following words."
- **Option 4F (Rhyming Pairs)**: "Match the pairs that rhyme." (*Constraint*: Exactly **2 pairs**)

Task 5: Discourse & Cohesion

- **Option 5A (Gap Fill with List)**:
    - *Formula 1*: "Fill in the gaps with words from the list given." (*Constraints*: 4 gaps, 4 words)
    - *Formula 2*: "Fill in the gaps with only 4 words from the list given." (*Constraints*: 4 gaps, 6 words in list)
- **Option 5B (Open Gap Fill)**: "Fill in the gaps so that the text makes sense." (*Constraint*: 4 gaps, no words provided)
- **Option 5C (Paragraph Reordering)**: "Reorder the following sentences to get a coherent

passage." (*Constraint*: 4 statements)
- **Option 5D (Dialogue Completion)**: "Imagine what A or B says, and complete the following dialogue." (*Constraint*: 3 missing utterances)

Part 2: Written Expression (6 Points Total)

- **Task Choices**: Topic 1 (Guided, notes provided, 80–120 words) OR Topic 2 (Free, no notes provided, 80–120 words).
- **Scoring Rubric**: Relevance (1.5 pts), Coherence (1.0 pt), Use of Linguistic Resources (2.0 pts), Excellence (1.5 pts).

2. Literature and Philosophy Stream

Stream Parameters

- **Duration**: 2 hours | **Coefficient**: 3
- **Reading Passage Length**: 120 to 150 words
- **Total Score**: 20 points (Part 1: 15 pts [Comprehension: 7 pts, Text Exploration: 8 pts], Part 2: 5 pts)
- **Task Selection Rule**: Select exactly **4 Comprehension tasks** and **4 Text Exploration tasks**.

Part 1 — Section A: Comprehension Tasks (Select 4)

Task 1: Text Type / Verification / Multiple Choice

- **Option 1A (Text Type / Format)**:
  - *Formula 1*: "The text is a..." (a: [option 1], b: [option 2], c: [option 3])
  - *Formula 2*: "The text is an extract from an email, a web article, or a newspaper article."
  - *Constraint*: Exactly **3 options** provided across both formulas.
- **Option 1B (True / False)**: "Say whether the following statements are true or false."
  - *Constraint*: **3 to 4 statements**.
- **Option 1C (True / False with Correction)**: "Say whether the following statements are true or false and correct the false ones."
  - *Constraint*: **3 to 4 statements**.
- **Option 1D (Multiple Choice)**: "Write the letter that corresponds to the right answer." OR "Choose the answer to complete each statement."
  - *Constraint*: Exactly **3 statements**, with **3 choices/answers to choose from** for each statement.

Task 2: Location / Sequence / Data Extraction

- **Option 2A (Paragraph Identification)**: "Identify the paragraph in which the following ideas are mentioned."
  - *Constraint*: Target **2 ideas** from **2 different paragraphs**.
- **Option 2B (Sentence Ordering)**: "Put the following ideas in the order they appear in the text."
  - *Constraint*: Exactly **3 to 4 ideas**.
- **Option 2C (Table Completion)**: "Fill in the following table with information from the text."
  - *Constraint*: Custom table structure depending on data extracted; requires exactly **4 items** to be filled.

Task 3: Direct & Inferential Questions

- **Wording**: "Answer the following questions according to the text."
- **Constraint**: Exactly **3 questions**, including exactly **1 inference question**.

Task 4: Cohesive Markers

- **Wording**: "Find who or what the underlined words refer to in the text."
- **Constraint**: Exactly **3 to 4 target words**; selection must not be limited to referents that immediately follow or precede **Constraint**: the words chosen for this task must be: A pronoun being personal, demonstrative, relative, interrogative, or reflexive. A word or expression which is meant to avoid the repetition of a subject in the text

Task 5: Macro-Comprehension

- **Option 5A (Title)**:
  - *Formula 1*: "Copy the title you think is the most appropriate." (*Constraint*: Exactly **3 suggested titles** provided)
  - *Formula 2*: "Give a title to the text." (*Constraint*: Open response; **no suggestions** provided)
- **Option 5B (General Idea)**:
  - *Formula 1*: "Choose the general idea of the text." (*Constraint*: Exactly **3 options** provided)
  - *Formula 2*: "Give the general idea of the text." (*Constraint*: Open response; **no options** provided)
- **Option 5C (Discourse Type)**: "The text is... a) descriptive b) narrative c) argumentative d) prescriptive."
  - *Constraint*: Apply only if a single discourse type dominates.

Part 1 — Section B: Text Exploration Tasks (Select 4)

Task 1: Lexis / Vocabulary

- **General Constraint**: Applies to 1A, 1B, and 1C — exactly **2 to 3 target items**; paragraph numbers **must be specified**.
- **Option 1A (Synonyms / Antonyms)**: "Find in the text words or phrases that are closest in meaning to..." OR "...opposite in meaning to..."
- **Option 1B (Matching Table)**: "Match the following words with their corresponding synonyms / opposites / definitions." This task must include a table: Two columns, two rows. The headings of each column should be bold. The first cell of the first row should contain the word "word". The second cell of the first row should contain either "synonym", "opposite", or "definition" Depending on the type of the task Chosen. The first cell of the second row should contain the target words chosen for the task. The second cell of the second row should contain the matching synonyms, matching opposites, or matching definitions. The column width should accommodate the length of the sentence or words which are in it and Each sentence or word must be written in one line.
- **Option 1C (Definition Match)**: "Find words in the text whose definitions follow:"

Task 2: Morphology

- **Option 2A (Chart Completion Table)**: "Complete the chart as shown in the example."
  - *Constraint*: Exactly **1 solved example** + **2 to 3 derived words** from the text. This task should contain a table. With four rows and three columns. The cells of the first row

should contain, in order, "Verb", "Noun", "Adjective". They should be bold. The second row of this table should contain a solved example: one verb that is transformed into a noun that is transformed into an adjective. The rest of the rows should contain one word and two empty cells for the students to fill.

- **Option 2B (Affix Separation Table)**: "Divide the following words into roots and affixes." OR "Give the opposites of the following words keeping the same root."
  - *Constraint*: Exactly **2 to 3 words**. This task must contain a table. The table should have two rows and three columns. The cells of the first row should say,in bold and in order: "Prefix", "Root" and "Suffix" The second row should be empty.

Task 3: Grammar Transformation & Mechanics

- **Option 3A (Sentence Rephrasing)**: "Rewrite sentence B so that it means the same as sentence A." (*Constraint*: 2 to 3 sentences)
- **Option 3B (Sentence Combination)**: "Combine each pair of sentences with one of the connectors provided. Make changes where necessary." (*Constraint*: 2 to 3 sentence pairs)
- **Option 3C (Verb Tense Conjugation)**: "Give the correct form of the verbs in brackets." (*Constraint*: Passage with 3 to 4 verbs in brackets)
- **Option 3D (Question Formation)**: "Ask questions which the underlined words answer." (*Constraint*: Max 2 questions)

Task 4: Phonology

- **Option 4A (Final /s/ Pronunciation Table)**: "Classify the following words according to the pronunciation of the final /s/." (*Constraint*: 4 words)This task must contain a table. The cells of the first row should state in bold and in order "**/s/**", "**/z/**", and "**/iz/**". The cells second row should be empty.
- **Option 4B (Final /ed/ Pronunciation Table)**: "Classify the following words according to the pronunciation of the final /ed/." (*Constraint*: 4 words). This task should contain a table. The cells of the first row should have in bold and in order "**/t/**", "**/d/**", and "**/id/**". The cells second row should be empty.
- **Option 4C (Stressed Syllable Table)**: "Classify the following words according to the stressed syllable." (*Constraint*: 4 words). This task must include a table. 2 rows and 4 columns. Each cell of the first row should state in bold and in order. "1s syllable", "2nd syllable", "3rd syllable", "4th syllable"
- **Option 4D (Syllable Count Table)**: "Classify the following words according to the number of syllables." (*Constraint*: 4 words). This task must include the table. The table Has 2 rows and 4 columns. The cells of the first row should state, in bold and in order: "one syllable", "two syllables", "three syllables", "four or more syllables", The second row should be empty.
- **Option 4E (Silent Letter)**: "Circle or write the silent letter in each of the following words."
- **Option 4F (Rhyming Pairs)**: "Match the pairs that rhyme." (*Constraint*: Exactly **2 pairs**)

Task 5: Discourse & Cohesion

- **Option 5A (Gap Fill with List)**:
  - *Formula 1*: "Fill in the gaps with words from the list given." (*Constraints*: 4 gaps, 4 words)

- *Formula 2*: "Fill in the gaps with only 4 words from the list given." (*Constraints*: 4 gaps, 6 words in list)
- **Option 5B (Open Gap Fill)**: "Fill in the gaps so that the text makes sense." (*Constraint*: 4 gaps, no words provided)
- **Option 5C (Paragraph Reordering)**: "Reorder the following sentences to get a coherent passage." (*Constraint*: 4 statements)
- **Option 5D (Dialogue Completion)**: "Imagine what A or B says, and complete the following dialogue." (*Constraint*: 3 missing utterances)

Part 2: Written Expression (5 Points Total)

- **Task Choices**: Topic 1 (Guided, notes provided, 80–120 words) OR Topic 2 (Free, no notes provided, 80–120 words).
- **Scoring Rubric**: Relevance (1.0 pt), Coherence (1.0 pt), Use of Linguistic Resources (2.0 pts), Excellence (1.0 pt).

3. Scientific & Technical Streams

Stream Parameters

- **Streams Included**: Experimental Sciences, Mathematics, Mathematical Technique, Management & Economy
- **Duration**: 2 hours | **Coefficient**: 2
- **Reading Passage Length**: 120 to 150 words
- **Total Score**: 20 points (Part 1: 15 pts [Comprehension: 8 pts, Text Exploration: 7 pts], Part 2: 5 pts)
- **Task Selection Rule**: Select exactly **4 Comprehension tasks** and **4 Text Exploration tasks**.

Part 1 — Section A: Comprehension Tasks (Select 4)

Task 1: Text Type / Verification / Multiple Choice

- **Option 1A (Text Type / Format)**:
  - *Formula 1*: "The text is a..." (a: [option 1], b: [option 2], c: [option 3])
  - *Formula 2*: "The text is an extract from an email, a web article, or a newspaper article."
  - *Constraint*: Exactly **3 options** provided across both formulas.
- **Option 1B (True / False)**: "Say whether the following statements are true or false."
  - *Constraint*: **3 to 4 statements**.
- **Option 1C (True / False with Correction)**: "Say whether the following statements are true or false and correct the false ones."
  - *Constraint*: **3 to 4 statements**.
- **Option 1D (Multiple Choice)**: "Write the letter that corresponds to the right answer." OR "Choose the answer to complete each statement."
  - *Constraint*: Exactly **3 statements**, with **3 choices/answers to choose from** for each statement.

Task 2: Location / Sequence / Data Extraction

- **Option 2A (Paragraph Identification)**: "Identify the paragraph in which the following ideas are mentioned."

- *Constraint*: Target **2 ideas** from **2 different paragraphs**.
- **Option 2B (Sentence Ordering)**: "Put the following ideas in the order they appear in the text."
- *Constraint*: Exactly **3 to 4 ideas**.
- **Option 2C (Table Completion Table)**: "Fill in the following table with information from the text."
- *Constraint*: Custom table structure matching extracted data; requires exactly **4 items** to be filled.

Task 3: Direct & Inferential Questions

- **Wording**: "Answer the following questions according to the text."
- **Constraint**: Exactly **3 questions**, including exactly **1 inference question**.

Task 4: Cohesive Markers

- **Wording**: "Find who or what the underlined words refer to in the text."
- **Constraint**: Exactly **2 to 3 target words**; selection must not be limited to referents that immediately follow or precede.
- **Constraint**: the words chosen for this task must be: A pronoun being personal, demonstrative, relative, interrogative, or reflexive. A word or expression which is meant to avoid the repetition of a subject in the text.

Task 5: Macro-Comprehension

- **Option 5A (Title)**:
- *Formula 1*: "Copy the title you think is the most appropriate." (*Constraint*: Exactly **3 suggested titles** provided)
- *Formula 2*: "Give a title to the text." (*Constraint*: Open response; **no suggestions** provided)
- **Option 5B (General Idea)**:
- *Formula 1*: "Choose the general idea of the text." (*Constraint*: Exactly **3 options** provided)
- *Formula 2*: "Give the general idea of the text." (*Constraint*: Open response; **no options** provided)
- **Option 5C (Discourse Type)**: "The text is... a) descriptive b) narrative c) argumentative d) prescriptive."
- *Constraint*: Apply only if a single discourse type dominates.

Part 1 — Section B: Text Exploration Tasks (Select 4)

Task 1: Lexis / Vocabulary

- **General Constraint**: Applies to 1A, 1B, and 1C — exactly **2 to 3 target items**; paragraph numbers **must be specified**.
- **Option 1A (Synonyms / Antonyms)**: "Find in the text words or phrases that are closest in meaning to..." OR "...opposite in meaning to..."
- **Option 1B (Matching Table)**: "Match the following words with their corresponding synonyms / opposites / definitions.". This task must include a table: Two columns, two rows. The headings of each column should be bold. The first cell of the first row should contain the word "word". The second cell of the first row should contain either "synonym", "opposite", or "definition". The first cell of the second row should contain the target words

chosen for the task. The second cell of the second row should contain the matching synonyms, matching opposites, or matching definitions. The column width should accommodate the length of the sentence or words which are in it and Each sentence or word must be written in one line.

- **Option 1C (Definition Match)**: "Find words in the text whose definitions follow:"

Task 2: Morphology

- **Option 2A (Chart Completion Table)**: "Complete the chart as shown in the example."
  - *Constraint*: Exactly **1 solved example** + **2 to 3 derived words** from the text. This task must contain a table. With four rows and three columns. The cells of the first row should contain, in order, "verb", "noun", "adjective". They should be bold. The second row of this table should contain a solved example: one verb that is transformed into a noun that is transformed into an adjective. The rest of the rows should contain one word and two empty cells for the students to fill.
- **Option 2B (Affix Separation Table)**: "Divide the following words into roots and affixes." OR "Give the opposites of the following words keeping the same root."
  - *Constraint*: Exactly **2 to 3 words**. This task should contain a table. The table should have two rows and three columns. The cells of the first row should say, in order: "Prefix", "Root" and "Suffix" The second row should be empty.

Task 3: Grammar Transformation & Mechanics

- **Option 3A (Sentence Rephrasing)**: "Rewrite sentence B so that it means the same as sentence A." (*Constraint*: Exactly 2 sentences)
- **Option 3B (Sentence Combination)**: "Combine each pair of sentences with one of the connectors provided. Make changes where necessary." (*Constraint*: Exactly 2 sentence pairs)
- **Option 3C (Verb Tense Conjugation)**: "Give the correct form of the verbs in brackets." (*Constraint*: Passage with 3 to 4 verbs in brackets)
- **Option 3D (Question Formation)**: "Ask questions which the underlined words answer." (*Constraint*: Max 2 questions)

Task 4: Phonology

- **Option 4A (Final /s/ Pronunciation Table)**: "Classify the following words according to the pronunciation of the final /s/." (*Constraint*: 4 words). This task should contain a table. The cells of the first row should have in bold and in order “**/s/**”, “**/z/**”, and “**/iz/**”. The cells second row should be empty.
- **Option 4B (Final /ed/ Pronunciation Table)**: "Classify the following words according to the pronunciation of the final /ed/." (*Constraint*: 4 words). This task must contain a table. The cells of the first row should have in bold and in order “**/t/**”, “**/d/**”, and “**/id/**”. The cells second row should be empty.
- **Option 4C (Stressed Syllable Table)**: "Classify the following words according to the stressed syllable." (*Constraint*: 4 words). This task must include a table. 2 rows and 4 columns. Each cell of the first row should state in bold and in order. "1st syllable", "2nd syllable", "3rd syllable", "4th syllable"

- **Option 4D (Syllable Count Table)**: "Classify the following words according to the number of syllables." (*Constraint*: 4 words). This task must include the table. The table Has 2 rows and 4 columns. The cells of the first row should state, in bold and in order: "one syllable", "two syllables", "three syllables", "four or more syllables", The second row should be empty.
- **Option 4E (Silent Letter)**: "Circle or write the silent letter in each of the following words."
- **Option 4F (Rhyming Pairs)**: "Match the pairs that rhyme." (*Constraint*: Exactly **2 pairs**)

Task 5: Discourse & Cohesion

- **Option 5A (Gap Fill with List)**:
  - *Formula 1*: "Fill in the gaps with words from the list given." (*Constraints*: 4 gaps, 4 words)
  - *Formula 2*: "Fill in the gaps with only 4 words from the list given." (*Constraints*: 4 gaps, 6 words in list)
- **Option 5B (Open Gap Fill)**: "Fill in the gaps so that the text makes sense." (*Constraint*: 4 gaps, no word list provided)
- **Option 5C (Paragraph Reordering)**: "Reorder the following sentences to get a coherent passage." (*Constraint*: 4 statements)
- **Option 5D (Dialogue Completion)**: "Imagine what A or B says, and complete the following dialogue." (*Constraint*: 3 missing utterances)

Part 2: Written Expression (5 Points Total)

- **Task Choices**: Topic 1 (Guided, notes provided, 80–120 words) OR Topic 2 (Free, no notes provided, 80–120 words).
- **Scoring Rubric**: Relevance (1.0 pt), Coherence (1.0 pt), Use of Linguistic Resources (2.0 pts), Excellence (1.0 pt).
